

## Chain Styles

### What is Chain?

*A series of connected loops, links, rings, or beads used to create bracelets or necklaces.*

### Types of Chain

- **Box Chain**  
A type of chain with links that are wide and square to form boxes
- **Cable Chain**  
The links are round and uniform in size
- **Curb Link Chain**  
A type of chain where the links are oval and twisted so they lie flat.
- **Figaro**  
Similar in style to a curb chain, but instead of uniform links, the links alternate between long ones and round ones.
- **Herringbone Chain**  
Created by small, slanting links, which gives it a flat effect.
- **Mesh**  
A chain that is fabric-like and woven of fine wire.
- **Rope Chain**  
Chain with a spiral appearance, with the effect of two thick strands woven together
- **Snake Chain**  
A type of chain with links that fit together to form a bendable-tubular chain
- **Belcher Chain**  
A type of chain where the links are round, concave on the inside and uniform in shape
- **Omega Chain**  
A stiff styled collar that lies flat on the neckline
